

St. Joseph's College of Education for Women ,Guntur
Student Satisfaction Survey A Report.

2016-17

St. Joseph's College of Education had surveyed students about their satisfaction of their College experiences.

The topics that the survey asked were, students' experiences in academic programmes, learning experiences and students support services learning resources including hostel, library and other learning resources. In addition, the college wants to know whether students were satisfied with their experiences and give feedback for the improvement if there are any lapses.

The survey (exit) questionnaires were given to all the student teachers and M.Ed. students enrolled(+5) (Model questionnaire)

Overall students' educational experiences at SJCE are expressed by the following points

- About 90% of the students indicated that they are satisfied with teaching of the faculty.

- About 95% of the students were satisfied with all the physical facilities and congenial atmosphere available in the college.

- About 30% of the students expressed little dissatisfaction with hostel facilities.

- 95% of the students were satisfied with the examination system, Project work, practical work, existing internal assessment system and the approach of the faculty.

Each and every response helps us to overcome the short comings and lead the upcoming batch of students to more satisfying ends.
